Coronavirus Disease 2019 (COVID-19)

Facts Sheet: For the Unsheltered

What is it? COVID-19 is a respiratory illness that can be easily spread from person to person.

What are the Symptoms?

<table>
<thead>
<tr>
<th>Watch for Fever</th>
<th>Cough</th>
<th>Shortness of Breath or Difficulty Breathing</th>
</tr>
</thead>
</table>

These are the most common.

Patients diagnosed with COVID-19 have experienced mild to severe respiratory illness and even death.

Symptoms can appear 2-14 days after exposure to the virus!

What can I do to protect myself?

1. Wash your hands with soap and water frequently if available, or use an alcohol based hand sanitizer with (65%-95% Alcohol).
2. Avoid touching your face, including eyes, nose and mouth after touching possibly contaminated surfaces. Again, wash your hands!
3. Keep your distance from others, at least 6 feet away, others may not have symptoms, but still can be contagious.
4. Keep tents apart 12 feet x 12 feet to provide distance from other people
5. Don’t share drinks, food, cigarettes or anything that has touched another person’s mouth.

What can I do if I become sick?

Stay in your camp
Wash hands
Cover your cough

ADVISORY
Due to the Coronavirus spread in our community

We are requiring telephone visits in almost all instances for the benefit of our patients. Telephone visits save time, travel and reducing the risk of coronavirus spread.

All appointments should be made by phone
